SAVE
THE WORLD!

Coming down to earth

Winning a Hackathon, but the winners are all from different organisations!

Training junior doctors – Chelsea and Westminster Hospital

Staying in a care home

Too much to read-don't attempt

Jean's Involvements, November 2017

Projects currently involved in: Key - leading, participating

- Two page column in quarterly magazine of Action on Hearing Loss
- Staying in a care home
- Dementia Orchard research, Nottingham: hearing loss and dementia
- Mental health and hearing loss panel, Nottingham
- AoHL Steering Group, Hear to Inform and Connect. to expand volunteer-led outreach information services for older and isolated people with hearing loss
- Hackathon-NHS England what works guides, leading as chair of Hackathon project; participant in the wider group
- Upon receipt of private innovative hearing aids the intention is to promote
- Creation of Nottingham group, to research with mixed professionals to do with hearing loss in care homes
- Occasional attendee at CLAHRC NWL Exchange network
- NWL CLAHRC Collaboration events
- Running training re hearing loss in acute unit/s in Chelsea and Westminster
- Creating Jean Straus prize in order to sustain the above
- Under Cherelle Augustine, create patient fellow blogs for NWL CLAHRC website
- Hounslow patient forum participant
- Being interviewed by Cleo Williamson, Point of Care Foundation
- Judging South London CLAHRC projects
- Helping to recruit participants in UCL research on cognition and hearing loss
- UCL research, patient participant, "cost" and "novel hearing loss therapies"
- Music and hearing loss, Leeds University, ongoing involvement

Completed projects:

- Patient on Steering group, James Lind Alliance, Priority Setting Projects, 10 Research Questions to do with Mild to Moderate Hearing Loss
- Ramble Round Richmond, fundraising initiative for Action on Hearing Loss
- Patient on Steering Group, Aston University, developing Option Grid for Tinnitus Care, acting in supporting video
- Patient campaign against Enfield Trust's plan to axe provision of hearing aids
- OWCH and acoustics, looking into, publicising

Projects still under consideration:

- Creation of Nottingham group research with mixed professionals to do with hearing loss in care homes
- Care home magazine-may never happen as too much for one person
- Blog for Evidently Cochrane re patient perspective in CLAHRC
- Healthy new towns-hope to be involved with acoustic planning in care homes
- Ruth Thomsen sensory group

Branching out

With thanks:

To Ruth Thomsen for introducing me to CLAHRC NWL and staying with me throughout

To all at CLAHRC NWL for supporting me

To my fellow and sister CLAHRC NWL Fellows for fun and support

To Liz Evans for nurturing my enthusiasm whilst giving it discipline

To Paul Sullivan, for being such a great talent scout

To Annie Rickard Straus for the visuals
