14 day challenge – Long Term Success

Use the WISH tool to integrate data you are collecting for the projects.

- Ensure all members in the team log into WISH
- Check that all members involved with the project have the right level of access on WISH and contact the project manager to correct any errors.
- **Ensure that each member completes the next entry for the Long Term Success Tool** (if not already done so for the month of April). Once team scores have been collected ensure time within team meetings is allocated to feedback and discuss results.
